Sprint Planning Meeting

- **Use Plan Mode**
- **Describe highest priorities on beginning of Sprint**
- **Create detailed tasks, estimate and assign**
- **Artifacts: sprint goal and sprint backlog**

In Plan Mode You Can…

- **Prioritise your backlog**
- **Create sub tasks from stories**
- **Estimate, assign and rank**
- **Logically group into epics**
- **Add to sprints**
- **Start a sprint**
- **Come back to do more planning**

Let's take a look…

Rules of Common Sense

- **Scope creep**
  - Avoid or at least control
  - Realistic expectations
- **Golden triangle!**

Cost — Time — Quality

Sprint Retrospective Meeting

- **Start-Stop-Continue approach**
- **Use the Sprint Report**
- **Define how you will improve next sprint**

Sprint Review

- Usually does not involve JIRA
- Demo mode
- Break a leg!

Summary

- **Sprint Planning Meeting gets you started**
  - Assign, track, estimate, rank
  - **Commit** to a body of work
  - Get people working!
- **Sprint Retrospective**
  - Think of it as auditing your own process
  - Check if you improved what you **committed** to in previous retrospective
  - Start-Stop-Continue
  - **Commit** to improving
- **Sprint Review**
  - Dog & Pony!
  - Show your work
